

## Oregano Juice

Oregano juice is highly aromatic extract made from wild oregano growing in high mountains - up to 12,000 feet above sea level. Plant concentrates oxygen from the mountain air. Juice and oxygen mix, what makes Oregano Essence higher in oxygen content than Oregano Oil. Essence is great for the oxygenation of the brain and other internal organs. It gives body optimal strength and energy. Synthetic oxygen is potentially caustic, but plant oxygen is entirely safe. In today's world full of pollutants, drinking Oregano Essence is a perfect way to ingest the amount of oxygen we need. Oregano Essence has ancient uses. For hundreds of years it has been relied upon as a health booster and disease fighter. It is excellent to stimulate body's functions, to improve digestion, metabolism and circulation. As a digestive tonic it stimulates digestive juices and regulates the appetite. It can be taken every day for the boost of energy.

An ounce or more of Essence can be added to any vegetable or fruit juice . Best juices: tomato and V-8. It can be used for gargle with salt water (salt aids it's absorption).
